Skyline Woods

*The one source for
all your log home needs*

The art of nature made simple.

"I just wanted to let you know how impressed I am with your organization and your products. I was expecting to find some unusable boards, but to my surprise there was not a single board that was unusable; not even one that was in semi-rough shape. It was a dream to work with. My house is everything I had hoped it would be! Thanks!"

*Chris Johnson
Winona, MN*

Kitchen Makeover

Knotty Pine paneling

New construction...
log siding, posts and railing

A basement transformation...
from concrete block to log sided
in a weekend!

Exterior...before and after

Have you always dreamed about having a log home? Skyline Woods makes that simple. Our line of natural pine and cedar siding, paneling and accessories can transform any home into a log home, whether it's inside or out, one room or your entire house.

Explore the possibilities that Skyline Woods offers and discover how you can have that *up north* feeling in your home.

Log Siding...

"Well, we are finished siding our cabin. The quality of the materials we purchased from you was excellent. We enjoyed working with it and there was very little waste."

Larry and Ginnie Burt
Atlanta, MI

The unmatched quality of our siding and paneling is a guaranteed sure-fit the first time, every time. Individualized service with our expert staff will walk you through your project or ideas from start to finish. We offer numerous "in stock" siding and paneling for same day pick up or delivery.

Tongue-n-Groove and End-matched Log Siding

Our log siding is engineered and designed for easy installation, with minimal waste and measuring. Our unique end-match design gives us a distinct advantage over our competitors. Every piece is inspected and defected for the best quality possible before packaging. The tongue-n-groove and end-match design gives you an authentic log look with less maintenance: no face nailing, no caulking in between joints, no waste. Available smooth or hand (hewn) peeled for the genuine log look.

QUARTER LOG SIDING

The quarter log is the economical choice to achieve the "Look of Logs", and is available in both 2 x 6 or 2 x 8, in smooth or hand hewn. Our quarter log is manufactured with a 1/4" tongue-n-groove and end match system, which covers all nails or screws, locking the boards into place for maximum strength and durability. This system saves labor and material, thus saving you money.

HALF LOG SIDING

Our most popular style, for the look of logs without the full log price. Available in 3 x 6 or 3 x 8, in smooth or hand hewn. Our half log siding is designed with a 1/2" tongue-n-groove and end-match system. There isn't a stronger single tongue-n-groove system out there, leaving no exposed nails or screws, and eliminating excessive labor and material expenses. We estimate you save 20% over ship-lap and other tongue-n-groove siding.

PREMIER LOG SIDING

Our biggest and best siding that offers you logs with luxury, giving any home the look of a true log home. This is our newest style that will give you an upscale look at the possibilities of log siding. These hand hewn logs are featured in 3 x 8 or 3 x 10, and are the biggest and best available. Like all of our quality wood products, Premier Log Siding is end-matched to save you time and money. Plus the extra coverage cuts down on labor, and gives you an impressive log look.
