

# Window & Door Trim...

*"I wanted to let you know how pleased we are. Thank you again so much. It has been a pleasure doing business with you and your company."*

Linda Moser  
Elkhart, IN

3 x 4

2 x 4

2 x 6

## Log Window and Door Trim

A must to complement your log siding installation. Available in five distinctive sizes, 2" x 4", 3" x 4", 4" x 4", 2" x 6", and 3" x 6"

### QUARTER LOG TRIM

The 3" x 4" and 2" x 6" are a log style trim used in coordination with the quarter log, smooth or hand hewn.

### HALF LOG TRIM

Available in 4" x 4" and 3" x 6" used for the half log and premier log, which gives a log look to your trim in a smooth or hand hewn texture.

4 x 4

3 x 6

### ELECTRICAL BOX TRIM

For electrical box installation that takes the worries and hassles out of dealing with electrical outlets on a rounded log surface. Stock sizes are available in single duplex, double duplex or round cutout for lighting. Custom orders are not a problem (triples, quads, etc).

# Corners & Accents...

*"I'm the school teacher that purchased the quarter log 2 x 6 siding from the Woodworkers Shoppe last summer. The exterior of my lake home has been completed and only the interior needs some finishing touches before we move in. We love it! Thanks once again for your help in finding the siding that was perfect for my needs."*

Doug Castellana  
Sussex, NJ

## Corner Options and Accents

Get the authentic log home look with our custom corners, manufactured for each siding profile, along with decorative and structural log rafters and posts.

### VERTICAL LOG CORNERS

Available in 6" and 8" diameters and custom made to each specific siding profile. They present a clean way to finish the outside corners of your project economically, in a smooth or hand hewn look.

### BUTT-N-PASS STYLE CORNERS

Custom made in 6", 8" and 10" to integrate with all of our log siding profiles, each extend out beyond your framed structure giving you the full log look that you'd expect out of a full log home, but without the cost.

### SADDLE-NOTCH CORNERS

Custom cut in 6", 8", and 10" and scribed to all siding profiles, our Saddle-notch corners will add that full log look to your home, and are available in smooth or hand hewn finish to compliment your siding choice.

### LOG POSTS AND RAFTERS

Offered in diameters from 4" to 14" and lengths up to 36'.

Available species of Northern White Cedar, Pine and Spruce.

Flat sawing is available for use as rafters or joists.

# Paneling...

"Thanks again for the 1 x 8  
knotty pine paneling.  
I was completely thrilled  
with it. The ease of  
installation and quality  
of the boards was second  
to none. Thanks again."

Mike Schultz  
Bellevue, NE

## Tongue-n-Groove Paneling

Our Knotty Pine or Northern White Cedar carry our unique tongue-n-groove and end-matched design system. End matching means tongue-n-groove on the ends, so there is no need to deal with butt joints meeting on a stud. It's a continuous assembly with no measuring necessary until you get to the last piece in a row. Then, after that piece is cut, you will use the leftover piece to start your next row. The results are 15-20% labor savings and up to 20% less material waste.

### KNOTTY PINE PANELING

Knotty Pine paneling is offered "in-stock" and available in widths of 4", 5", 6" and 8" unfinished. Pre-finished Knotty Pine paneling is an "in-stock" item and available in 5", 6" and 8" widths with a clear, non-yellowing, satin finish.

### CEDAR PANELING

Our Cedar paneling is an "in-stock" item and offered in 4", 5" and 6" widths. Pre-finished Cedar paneling is offered in the same clear coating as our Knotty Pine pre-finished paneling.

# Flooring & Decking...

*"It was clear that The Woodworkers Shoppe could provide most of the finish materials that we needed at a competitive price. We found the product even better than advertised and the delivery of the products we selected was done in a timely fashion causing no construction delays. The carpenters who assisted us in building our home all stated that they have never seen such consistent quality. A leading Montana architect referred to our home as "very Montana". That's exactly the look we dreamed of."*

Rich and Sherrie Daniels  
Canyon Ferry, Montana

## Wood Flooring and Decking

The wood flooring is available in Knotty Pine and is 3/4" thick and tongue-n-groove.

### **KNOTTY PINE FLOORING**

The Knotty Pine flooring is an "in-stock" item and comes in 4", 5", and 6" widths and ready for easy installation. It has all the rustic Knotty Pine charm and character needed in any log home.

### **LOFT AND ROOF DECKING**

Available in 2 x 6 profile and each is 1 1/2" thick with tongue-n-groove on all four sides (end-matched). Loft decking is finished on top and bottom while the roof decking has a finished bottom with a rough top surface. The tongue-n-groove does not need to meet on a joist.
